

# Project ReEnroll

Many schools and school districts are experiencing under-enrollment. In order to provide administrators with a user-friendly tool that can help locate these students, Mobility Blueprint has created **Project ReEnroll**.

## PLATFORM OVERVIEW

The platform allows authorized users a way to see missing students by any school. Students are mapped by their address. Because many students live in apartment complexes, the map works as a heat map, effectively allowing administrators to target a large group of missing students in one location. In addition, an interactive dashboard displays PEIMS data for every student.

School: ABC Elementary

**Total Missing Students: 81**

[Show Addresses](#)  
[Show Apartment List](#)

District Overview Table

Student Map/Report Multiple Schools

- View missing students by school boundary View student data including address, phone numbers and parent information
- Locate local apartment complexes including contact information
- Locate local charter schools including contact information
- View a student map/report utilizing Leaver Codes
- View a District Overview Table that shows total missing students and can be sorted by school and/or grade
- Export files to CSV for further review and strategic planning.

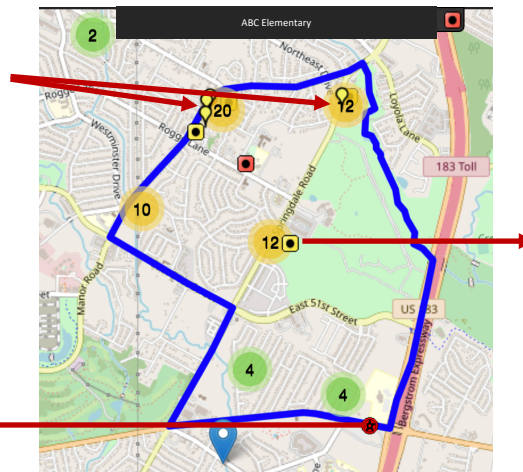

## SHOW ADDRESSES, APARTMENTS, CHARTER SCHOOLS

The heat map shows areas of high concentration of missing students.

Red stars indicate charter school locations. Click on one to see additional info.

**THE EAST AUSTIN COLLEGE PREP AT MLK**  
5800 E MARTIN LUTHER KING JR BLVD, AUSTIN

08/14/2020: No-Show -- 60 Home Schooling	

## PROJECT REENROLL PLATFORM FEATURES

- Heat maps show student location by population
- Quickly identify concentrations of students to more effectively allocate resources, services, and outreach efforts
- View student population by grade, ethnicity, and other demographic categories
- Review and Add comments to student database
- Review Leaver Codes
- Export data to CSV
- Sort data tables by name, demographic, grade, attendance, etc.
- Student data includes PEIMS data, parent names, telephone numbers, and email addresses
- Student data is updated each time the district provides new data to Mobility Blueprint
- Principals and other school leaders can use this data to create family engagement plans and to better understand their community
